server Training		<p>required course, we can have ordinance passed requiring Cheers as additional item for them to go complete to obtain license.</p> <p>Questioned if Tavern league would support? Purtel says league along with Greuel agrees that all beverage servers should definitely have an in person course as part of the licensure. He expressed strong desire for consistency for all beverage servers even if single nights volunteer or short term beer concession work at a festival.</p> <p>-comparable programs would need to be approved by Dept of Revenue. -on site beverage server training conducted this year that was accepted by CUSA and related events. -Festivals are separate issues handled differently due to licensing. Festivals apply for license under one name; they would be the only one that has to get the training. This is handled by special events licensing.</p> <p>-FVTC class is a 1 time 4 hr class and it's good for 2 years or can do on line. T. of Menasha has to at least register for a class before they apply. Won't create a burden to attend class vs. going on line.</p>	with them on details of included content.
Discussion	Yana	Do we want to add Cheers training to process?	Holding for more info
